EASY INSTALLATION! (No Tools Needed)

Start by laying your first panel on any corner. The loops should be pointed in the direction you want to add panels

The panels have 2 sides with female loops, and 2 sides with male pegs.

Place the next panel so that the pegs line up over the loops.

Gently step on each panel. You will hear and feel it snap into place. Repeat these steps until your flooring is complete. That's all there is to it!
